

NAME	INCI	APPEARANCE	COSMETIC PROPERTIES
EMULSIFIERS			
Emulsol AE	Cetearyl Alcohol, Cetareth-25, Cetareth-2	Flakes	Self-emulsifying base suitable for hair dye creams. High stability at very low pH.
Emulsol HT 25	Cetareth-25	Flakes, HLB 16.0	O/W emulsifier. Stable at low and high pH.
Emulsol CE 55	Ceteth-2	Flakes, HLB 5,3	O/W emulsifier. Stable at low and high pH.
Emulsol L 23	Laureth-23	Flakes, HLB 16,9	O/W emulsifier. Stable at low and high pH.
LIPIDS			
Stearic acid	Stearic Acid	Powder	Used in deo stick, creams, shaving products as consistency factor and emulsion stabilizer.
Cetyl alcohol	Cetyl Alcohol	Flakes	Emollient, enhancer and stabilizer of the O/W emulsion viscosity.
Cetearyl Alcohol	Cetearyl Alcohol	Flakes (30:70)	Emollient, enhancer and stabilizer of the O/W emulsion viscosity.
Stearyl Alcohol	Stearyl Alcohol	Flakes	Emollient, enhancer and stabilizer of the O/W emulsion viscosity.
Gliceril monostearate	Glyceryl Stearate	Powder	O/W emulsifier and emulsion stabilizer. Used as consistency factor.
Lanolin	Lanolin	Paste	Emollient and absorbing water base, emulsion stabilizer. Used in Decorative cosmetic for its good binding properties.
Lanocel OE	PEG-75-Lanolin	Liquid	Water soluble lanolin, emollient and re-fattening agent for shampoo and foaming soap.
VEGETABLE OILS and BUTTERS			
Apricot oil	Prunus Armeniaca oil	oily liquid	Emollient
Argan Oil	Argania Spinosa Oil	oily liquid	Emollient
Avocado Oil	Persea Gratissima Oil	oily liquid	Emollient
Camelia Oil	Camelia Oleifera seed Oil	oily liquid	Emollient
Castor Oil USP	Ricinus communis oil	oily liquid	Pigments wetting, plasticer for lipstick
Illipè Butter	Shorea Stenoptera Seed Butter	paste	Emollient
Macadamia Oil	Macadamia Ternifolia oil	oily liquid	Emollient
Mango Butter	Mangifera Indica Seed Oil	paste	Emollient
Orange Seed Oil	Citrus Aurantium dulcis seed extract	oily liquid	Emollient
Passion Fruit Seed oil	Passiflora Edulis Oil	oily liquid	Emollient
Perilla Oil	Perilla Ocymoides Seed Oil	oily liquid	Emollient
Peach kernel oil	Peach kernel oil	oily liquid	Emollient
Rice Bran Oil	Rice Bran Oil	oily liquid	Emollient
Shea Butter	Butyrospermum Parkii Butter	paste	Emollient
Shea oil	Butyrospermum Parkii Butter extract	oily liquid	Emollient
Sweet Almond oil	Prunus Amigdalus dulcis oil	oily liquid	Emollient

Wheat Germ Oil	Triticum Vulgare germ oil	oily liquid	Emollient
Argan Butter	Argania spinosa oil, hydrogenated vegetable oil, butyrospermum parkii butter, tocopherol	paste	Emollient, nice spreadibility, increase and stabilize the viscosity of the emulsion. Suitable for body butters, candle formulations and massage butters .
Avocado Butter	Persea gratissima oil, hydrogenated vegetable oil, butyrospermum parkii butter, tocopherol	paste	Emollient, nice spreadibility, increase and stabilize the viscosity of the emulsion. Suitable for body butters, candle formulations and massage butters .
Jojoba Butter	Sidmondsia chinensis oil, hydrogenated vegetable oil, butyrospermum parkii butter, tocopherol,	paste	Emollient, nice spreadibility, increase and stabilize the viscosity of the emulsion. Suitable for body butters, candle formulations and massage butters .
Macadamia Butter	Macadamia ternifolia seed oil, hydrogenated vegetable oil, butyrospermum parkii butter, tocopherol	paste	Emollient, nice spreadibility, increase and stabilize the viscosity of the emulsion. Suitable for body butters, candle formulations and massage butters .
Olive Butter	Olea europea oil, hydrogenated vegetable oil, butyrospermum parkii butter, tocopherol	paste	Emollient, nice spreadibility, increase and stabilize the viscosity of the emulsion. Suitable for body butters, candle formulations and massage butters .
Palm Butter	Elaeis guineensis oil, hydrogenated vegetable oil, butyrospermum parkii butter, tocopherol	paste	Emollient, nice spreadibility, increase and stabilize the viscosity of the emulsion. Suitable for body butters, candle formulations and massage butters .
Rice Bran Butter	Oryza sativa bran oil, hydrogenated vegetable oil, butyrospermum parkii butter, tocopherol	paste	Emollient, nice spreadibility, increase and stabilize the viscosity of the emulsion. Suitable for body butters, candle formulations and massage butters .
Sweet Almond Butter	Prunus amygdalus dulcis oil, hydrogenated vegetable oil, butyrospermum parkii butter, tocopherol	paste	Emollient, nice spreadibility, increase and stabilize the viscosity of the emulsion. Suitable for body butters, candle formulations and massage butters .

WAXES

Beeswax	Beeswax	Solid / Drops	consistency facytor for lipstick, W/O and O/W emulsions.
Jojoba wax	Hydrogenated vegetable oil, Simmondsia chinensis oil, tocopherol	Solid	consistency facytor for lipstick, W/O and O/W emulsions.
Olive wax	Hydrogenated vegetable oil, olea europaea oil, tocopherol	Solid	consistency facytor for lipstick, W/O and O/W emulsions.
Rice Bran wax	Hydrogenated vegetable oil, rice bran oil, tocopherol	Solid	consistency facytor for lipstick, W/O and O/W emulsions.
Sweet Almond wax	Hydrogenated vegetable oil, prunus amygdalus dulcis oil, tocopherol	Solid	consistency facytor for lipstick, W/O and O/W emulsions.
Depilatory wax	colophonium, paraffin, glyceryl rosinatate, cetyl stearate	Solid	It can be used to produce depilatory waxes/cream.
Massage Candle wax (Argan oil)	Argania spinosa oil, Stearic acid, Butyrospermum parkii butter, Cocos nucifera oil, Caprylic/capric triglyceride, cera alba	Solid	It can be used to produce massage candles.

ESTERS

Akomed R	Capric/caprylic Triglyceride	Liquid	Vegetable-based skin emollient with good stability at low temperature and resistance to oxidation. Widely used in skin care and decorative formulation.
Eudermoil DO	Decil Oleate	Liquid	Vegetable-based skin emollient with good stability. Used in skin and hair care formulations. It is suitable for dry skin and and dry hair
Eudermoil OS	Ethylhexyl Stearate	Liquid	Vegetable-based skin emollient with good stability and spreadability, used in the formulation of eye makeup, skin makeup, lipstick and skin care products.
Eudermoil OP	Ethylhexyl Palmitate	Liquid	Vegetable-based skin emollient with good stability and spreadability, used in the formulation of eye makeup, skin makeup, lipstick and skin care products.
Eudermoil IPM	Isopropyl Mirystate	Liquid	Vegetable-based skin emollient with good stability and spreadability, used in the skin care formulation and for massage cream/oils.
Eudermoil PTIS	Pentaerythryl Tetraisostearate	Liquid	High polarity oil with superior dispersing property on powder and pigments. Suitable for lipstick and liquid foudation.
Eudermoil CO	Cetearyl Octanoate	Liquid	Emollient with good compatibility and spreadability to skin and hair.
Eudermoil ININ	Isononil Isononanoate	Liquid	Non oily texture with good solubilizing property for silicone and good dispersing property for pigments

CATIONIC POLYMERS and CONDITIONERS

Elquat 33	Cetrimonium Chloride	Liquid 25%	Excellent conditioning agent, improve the combability on wet and dry hair.
Polyquat 6	Polyquaternium-6	liquid 40%	Excellent conditioning agent for shampoo providing lubricity and wet combing without excessive built up.
Polyquat 7	Polyquaternium-7	liquid 8%	Improves condizioning, excellent lubrication, Enhances foam stability, helps hold curls without flakes.
Polyquat 11	Polyquaternium-11	liquid 20%	It's substantivity ans excellent conditioning properties provide wet combability and manageability.
Polyquat 125	Polyquaternium-10	Powder	Very sustantive to skin/hair. Protects and strengthens damaged hair. Antistatic effect. Gives a creamy foam
Polyquat 400	Polyquaternium-10	Powder	Very sustantive to skin/hair. Protects and strengthens damaged hair. Antistatic effect. Gives a creamy foam
Polyquat 3000	Polyquaternium-10	Powder	Very sustantive to skin/hair. Protects and strengthens damaged hair. Antistatic effect. Useful as thickner.
Polyguarquat	Guar Hydroxypropyltrimonium Chloride	Powder	Excellent conditioner and thickening agent for hair and skin formulations. Improve the stability of the foam and a nice silky effect of the cream.
STAC 808	Staertrimonium Chloride	flakes	It's very effective in hair mildness, skin protection and anti-static.
BTAC 7580	Behentrimonium Chloride	pellets	It's very effective in hair mildness, skin protection and conditioners. Superior lubrication from long C22 alkyl chain.
PVP	PVP	Polvere	Hair fixative and conditioning polymers used for mousses, gel and hair care products.

RHEOLOGY MODIFIERS

Carbomer 940	Carbomer 940	Powder	It is an extremely efficient rheology modifier capable of providing high viscosity and forms sparkling clear water or hydroalcoholic gels and creams.
Multicare AM-50	Polyacrylamide, C13-14 Isoparaffin, Laureth-7	liquid 50%	rheology modifier, thickner, emulsion stabilizer. It can be used for wide pH range.
ACEcare 30 KC	Acrylates Copolymer	liquid 30%	rheology modifier, thicker, suspend and stabilize the surfactants and soaps based personal cleansing products.
Methyl Gluceth DOE 120	Peg-120 Methyl Glucose Dioleate	flakes	Extremely efficient viscosity builder for surfactant systems. It reduces eye irritations, It's suitable for baby shampoo and foam bath.
Poliguar	Hydroxypropyl Guar	powder	Excellent thickner in cosmetic formulation and an O/W stabilizer.
Poliguar HDR	Hydroxypropyl Guar	powder	Excellent thickner in cosmetic formulation containing high polar solvents content. O/W stabilizer.

MOISTURIZERS

Allantoina	Allantoin	powder	Moisturizing effect and skin protectant. Anti-irritant and keratolytic action
Methyl Gluceth E-10	Methyl Gluceth E-10	Liquid	Moisturizing, improvement of touch, film plasticizer, glossing, reduces tacky feel of formulation (high glycerin content or carbopol gel). Prevent soap bar cracking.
Methyl Gluceth E-20	Methyl Gluceth E-20	Liquid	Moisturizing, improvement of touch, film plasticizer, glossing, reduces tacky feel of formulation (high glycerin content or carbopol gel). Prevent soap bar cracking.
Pantesilk	Propylene Glycol, Cocoyl Hydrolyzed Silk Protein, Panthenol	Liquid	Excellent hair and skin conditioner. Used in shampoo, hair conditioner, hair spray. Provide moisturization and substantivity.

SKIN LIGHTNERS

Kojic Acid	Kojic Acid	Powder	Tyrosinase inhibitor, It was found useful as anti-spot agent, melanin formation inhibitor, Uv-induced hyperpigmentation preventive agent for the human skin.
Kojico Dipalmitate	Kojic Dipalmitate	Powder	Produce excellent effect fighting age spots, pregnancy marks, freckles and general pigmentation disorders of face and body. Excellent stability more than Kojic acid without any color instability problems acid.
Magnesium Ascorbyl Phosphate	Magnesium Ascorbyl Phosphate	Powder	It's stable water soluble Vitamin C derivative. Strong Inhibitory effect on melanin formation.

COOLING AGENTS

MTL	Menthyl Lactate		It's a higher purity grade of Menthyl Lactate. It provides extended, long lasting cooling effects for cosmetic.
MTL Waterfresh	Menthyl Lactate		Water soluble Menthyl Lactate suitable for shampoos and foam-baths.

PRESERVATIVES

Bronopol	2-Bromo-2-Nitropropane- 1,3 Diol	Powder	Antimicrobial agent suitable for acid surfactants systems.
Piroctone Olamina	Piroctone Olamine	Powder	It's an anti-dandruff active ingredient, soothes and reduces flaking. It has a specific action against Malassezia Furfur.
Climbazolo	Climbazole	Powder	It's an anti-dandruff active ingredient, soothes and reduces flaking. It has a specific action against Malassezia Furfur and trichophytic germs.
Germicide DMDM	DMDM Hydantoin	Liquid	Highly effective against Gram+, Gram-bacteria, active against molds.
Germicide SHG	Sodium Hydroxymethylglycinate	Liquid	Preservative derived from glycine. Broad spectrum antimicrobial activity, highly effective against Gram+, Gram- bacteria and molds. Can be used up to pH 12.
Germicide 2	Propylene Glycol, Diazolidinyl Urea, Methylparaben, Propylparaben	Liquid	Broad spectrum activity against bacteria, yeast and molds
Germicide 4	Phenoxyethanol, Methylparaben, Propylparaben, Butylparaben, Ethylparaben.	Liquid	Broad spectrum activity against bacteria and highly effective against fungi. Widely used for the protection of emulsions, oils and wet wipes.
Germicide IP	Phenoxyethanol, DMDM Hydantoin, Iodopropynyl Butylcarbamate	Liquid	Broad spectrum activity against bacteria, yeast and molds. Versatile alternative to parabens based systems suitable for the protection of a wide range of cosmetics for rinse off, leave-on and wet wipes.
Germicide ITZ	Methyl Isothiazolinone, Methyl Chloro Isothiazolinone	Liquid	Broad spectrum activity against bacteria, yeast and molds. Versatile alternative to parabens based systems suitable for the protection of a wide range of cosmetics for rinse off, leave-on.
Imydal 100	Imidazolidinyl Urea	Powder	Very active against Gram+ and Gram- bacteria.
Imydal 200	Diazolidinyl Urea	Powder	Very active against Gram+ and Gram- bacteria, with some antifungal activity.
Paraossi-benzoato di metile	Methyl Paraben	Powder	Antimicrobial activity against fungi.
Paraossi-benzoato di metile sale sodico	Sodium Methylparaben	Powder	Antimicrobial activity against fungi. Water soluble.
Paraossi-benzoato di etile	Ethyl Paraben	Powder	Antimicrobial activity against fungi.

UV FILTERS

Filter B3	Benzophenone-3	Powder	Oil soluble broad spectrum adsorption filter
Filter B4	Benzophenone-4	Powder	Water soluble UV filter, It's used to protect colorants, active ingredients and fragrances.
Filter ODP	Octyldimethyl PABA	liquid	Oil soluble UVB filter.
TG2 55T MBBT	Titanium dioxide, Caprylic/Capric triglycerides, Methylene Bis Benzotriazolyl Tetramethylbutylphenol, Polyhydroxystearic acid, dimethicone, alumina.	liquid dispersion	Particle filter dispersions. Combination of several filters in one product. No sedimentation and agglomeration, no loss of efficacy. Suitable for O/W and W/O high efficacy products with UVA and UVB protection.
MO AB 3-55TZ	Titanium dioxide, Zinc oxide, Paraffinum Liquidum, C12-C15 Alkylbenzoate, Polyhydroxystearic acid, Alumina.	liquid dispersion	Speciality dispersion of sunscreen filters for cosmetic use containing physical filters and emollient. UVA and UVB protection
TG-60ZP	Zinc Oxide, Caprylic/capric triglycerides, Triethoxycaprylyl silane, Polyhydroxystearic acid.	liquid dispersion	Speciality dispersion of sunscreen filters for cosmetic use containing physical filters and emollient. UVA and UVB protection. Suitable for high SPF sun care products.
TG-60TZP	Caprylic/capric triglycerides, Zinc Oxide, Titanium dioxide, Triethoxycaprylyl silane, Polyhydroxystearic acid.	liquid dispersion	Speciality dispersion of sunscreen filters for cosmetic use containing physical filters and emollient. UVA and UVB protection. Suitable for high SPF sun care products.

CHELATING AGENTS

EDTA Bisodico	Disodium EDTA	Powder	Chelating agent
EDTA Tetrasodico	Tetrasodium EDTA	Powder	Chelating agent
8-Idrossichinolina Solfato	Oxyquinoline Sulfate	Powder	Chelating agent. Suitable for system containing oxygen peroxide.
Sequestrene	Pentasodium Pentetate	Liquid	Chelating agent (Iron). Suitable for permanent wave.

DEPILATORY and PERMANENT WAVE AGENTS

Thioglycolic Acid	Thioglycolic Acid	Liquid 80%	Reducing agent used in permanent wave, straightening hair products. Used also in depilatory cream.
Ammonium Thioglycolate	Ammonium Thioglycolate	Liquid 50%	Reducing agent used in permanent wave and straightening hair products.
Calcium Thioglycolate	Calcium Thioglycolate	Powder	Reducing agent used in the depilatory cream.
Cysteamine HCl	Cysteamine HCl	powder, crystal	More "natural" reducing agent used in the permanent wave and straightening hair products.
Diammonium Dithioglicolate	Diammonium Dithioglicolate	Liquid 40%	Reducing agent used in the "self timing" permanent wave and straightening hair products.
Glyceryl Thioglycolate	Glyceryl Thioglycolate	Liquid 40%	Reducing agent used in the "acid" permanent wave.

VITAMINS

Pantenolo	Panthenol	Oily Liquid	Hair conditioner. Increase the moisture and the skin cell proliferation. Anti-irritant.
Vitamina A Acetato	Retinyl Acetate	Oily Liquid	Improve the elasticity and the moisture of the skin.
Vitamina A Palmitato	Retinyl Palmitate	Oily Liquid	Improve the elasticity and the moisture of the skin.
Vitamina C	Ascorbic Acid	Powder	Antioxidant and skin whitening. It takes part at the collagen synthesis.
Vitamina E Acetato	Tocopheryl Acetate	Oily Liquid	Antioxidant. It protects the cell membrane from the radical scavenger action.
